[Apharesis; Aphesis. The former is the suppression or removal of a letter or a syllable from the beginning of a word; the latter, 'the gradual and unintentional loss of a short unaccented vowel at the beginning of a word' (O.E.D.), being therefore a special class of word within the class determined by apharesis. The process is common in all unconventional speech, as, indeed, it is also in dial. E.g. 'lo! for hullo', 'less for unless', 'cept for except: frequently it results, almost imperceptibly, from hurried or slovenly speech. Occ. the process is carried still further, as in the 'Loo for Woolloomooloo, but, in such instances, it cannot be described as either unintentional or imperceptible. Apharesis is opp. to abridgement, in which the first syllable (as in *et cet* for *et cetera*) or the first two syllables (as, esp., in rhyming s.) are retained. Both apharesis and abbr. may usefully be contrasted with blends or portmanteau words, with 'telescopies' (reductions from single words), and with anagrammatic words.]

They allowed themselves so much for tobacco or cigarettes and so much for a monthly visit to the women in the Bazaar; the remainder was spent on beer. Only one basin was used between a school; it held a quart and each man took a drink in his turn from it, and each in turn walked to the bar with it when it wanted refilling. When money ran short they would borrow money right and left and sell any kit they did not want and also some that they did. Genuine boozing schools always paid their debts.... After they had paid their debts they would decide among themselves whether they would continue with the boozing school or not. After being on the tact' teetotal 'for about six months they would start boozing again with a capital of two hundred rupees.' brick, n., 3 (p. 92). As 'a loaf of bread' : 1848, *Sinks* : but that was low s., † by 1900.

brick, drop a. I am credibly informed that this phrase arose among a group of third-year undergraduates of Trinity College, Cambridge, in the May term, 1905 ; that it soon > University s. ; and that it spread very rapidly. The guarantor's account of the origin of the phrase is this : H. S. was Sergeant-Major of the Trinity College Company of the University Volunteers—a pre-Territorial force renowned neither for discipline nor for efficiency. Whilst

leading his company—small in numbers—along Trumpington Road on a route march, H. S. had to give an order, the road being under repair and building operations in progress on one or both sides. This H. S. did, in his best form and voice. Result (1) on the troops: *nul*; (2) on the builders: *some in alarm dropped their bricks*. The order was repeated with the same result. H. S. told us that after that he felt that each time he gave an order he too was going to drop a brick—hence the phrase meaning to ‘make a mistake’. In a few days the phrase was all over Cambridge and in a few months had gone round the world and returned to us.

Et delator es et calumniator,
et fraudator es et negotiator,
et fellator es et lanista. Miror
quare non habeas, Vacerra, nummos;

which he suggests might be translated somewhat after this fashion:

You're a pump, you deal in slander,
You're a cheat, a pervert, pander,
And gladiator-trainer. Funny,
Vacerra, that you have no money!

There is, too, an interesting adumbration in the anon. ballad or song, *The Jovial Crew*, 1670:

A Craver my Father,
A Maunder my Mother,
A Filer my Sister,
A Filcher my Brother,
A Canter my Uncle,
That ear'd not for Pelfe;
A Lifter my Aunt, a Beggar my self;
In white wheaten straw, when their bellies were full,
Then I was begot, between Trinker and Trull.
And therfor a Beggur, a Beggur I'll be,
For none hath a spirit so jovial as he.

An even closer adumbration, as Professor A. W. Stewart once reminded me, occurs in Goethe's *Faust*, Part I (published in 1808), in Marguerite's song in the course of the Prison Scene:

Meine Mutter, die Hur'
Die mich umgebracht hat!
Mein Vater, der Schelm,
Der mich gessen hat!
Mein Schwesterlein klein
Huh' auf die Bein'
An einem kühlen Ort;
Da wurdich ein schönes Waldvögelein;
Fliege fort, fliege fort!

[Cockney speech:—Edwin Pugh, one of the best of all writers on Cockney life, wrote at the beginning of *Harry the Cockney*, 1912: 'There is no such being . . . as a typical Cockney. But there are approximations to a type. There are men and women, the sons and daughters of Cockneys, born and bred within sound of Bow bells, and subject to all the common influences of circumstance and training and environment that London brings into play upon their personalities, who may be said to be . . . typical. The average Cockney is not articulate. He is often witty; he is sometimes eloquent; he has a notable gift of phrase-making and nicknaming. Every day he is enriching the English tongue with new forms of speech, new clichés, new slang, new catch-words. The new thing and the new word to describe the new thing are never very far apart in London. But the spirit, the soul, of the Londoner is usually dumb.']

Considerable space is given in this work—both in the *Dict.* proper and in the Addenda—to peculiarities of Cockney speech, because it is in itself important; it is important, too, for the influence it has exercised on the everyday language of Colonials—and, it must not be forgotten, that of Americans. (See also the *Dict.*) Moreover, back slang and rhyming slang were invented by Cockneys; they are still used widely by costermongers. In 1908 Clarence Rook, in *London Side Lights*, could say: 'I will back the costermonger . . . to . . . talk to a Regius Professor of English for half an hour, tell him the most amusing stories, and leave that Professor aghast in darkest ignorance.'

One of the best-informed *apersus* on the Cockney is that on pp. 42-3 of Michael Harrison's *Reported Safe Arrival*, 1943—a book containing many vivid, and accurate, transcripts of the Cockney speech of the 20th Century.]

Doolally tap. The *Dict.* entry is rendered more correct, precise, and significant by the following passage from Richards : 'The trooping season begun in October and finished in March, so that time-expired men sent to Deolalie from their different units might have to wait for months before a troop-ship fetched them home. . . . The time-expired men at Deolalie had no arms or equipment; they showed kit now and again and occasionally went on a route-march, but time hung heavily on their hands and in some cases men who had been exemplary soldiers got into serious trouble and were awarded terms of imprisonment before they were sent home. Others contracted venereal and had to go to hospital. The well-known saying among soldiers when speaking of a man who does queer things, "Oh, he's got the Doo-lally tap," originated, I think, in the peculiar way men behaved owing to the boredom of that camp. Before I was time-expired myself [in 1909] the custom of sending time-expired men to Deolalie was abolished : they were sent direct to the ports of embarkation, which in some cases meant weeks of travelling, but they got on the troop-ship the day they arrived at the port.' english. Spin on a ball, whether, as orig. and usually, in billiards or in baseball: Canadian: since ca. 1918. Mr D. S. Cameron, Librarian to the

University of Alberta, has, in a private letter of Aug. 23, 1937, explained the stages of the origination thus:—1. Language ekes out its own deficiency by gesture, hence, gesture equals "body English".

2. By direct transference, any gesture or contortion (as in trying to do a difficult physical task) becomes "body English".

3. In a game (e.g. billiards), effect of effort on the ball becomes "body English" on the ball.

4. By natural contraction, this becomes "English" on the ball, or "spin". . . . Can be written with little "e".

Mr Cameron adds that those who say *English* *side*, instead of *english* or *spin*, are merely being anti-English.

Prob. ex "aircraftmen". See esp. Partridge, 1945, both in introduction and in glossary: earlier in, e.g., E. P. in *The New Statesman*, Sept. 19, 1942, and H. & P., 1943. On March 9, 1945, W/Cdr F. J. H. Heading wrote to say, "The term "Erk" was first used in the R.A.F. Depot, Uxbridge, in 1920. The origination . . . was brought about when I wrote the song "One of the Aires", Aires being an abbreviation of aircraftmen. Through frequent use the term came to be pronounced Erk and I have no knowledge of this term being used in the R.F.C., R.N.A.S. or R.A.F. before the year 1920"; then on the 20th March, "To me Air Mechanics of the R.A.F. were always known as Ack Emmas". The weight of the evidence, however, shows that the song reinforced and hastened the growth of a term that was, in fact, already current.

hooligan. Too late for inclusion in the *Dict.* proper, I have found the following confirmation of

the proper-name origin. Clarence Rook in his sociologically valuable *The Hooligan Nights*, 1899—portions of it had been published early in the same year in *The Daily Chronicle*—writes thus: 'Good Americans . . . may be seen . . . eating their dinner at the Cheshire Cheese. I was bound on an expedition to the haunts of a more recent celebrity than Dr Johnson. My destination was Irish Court and the Lamb and Flag. For in the former Patrick Hooligan lived a portion of his ill-spent life, and gave laws and a name to his followers; in the latter, the same Patrick was to be met night after night, until a higher law than his own put a period to his rule. . . . My companion was one . . . who held by the Hooligan tradition, and controlled a gang of boys who made their living by their wits, and were ready for any devilry if you assured them of even an inadequate reward. . . . The dwelling-place of Patrick Hooligan enshrines the ideal towards which the Ishmaelites of Lambeth are working: and . . . young Alf's supremacy over his comrades was sealed by his association with the memory of a Prophet.'

At the beginning of Chapter II, he expatiates thus: 'There was, but a few years ago, a man called Patrick Hooligan, who walked to and fro among his fellow-men, robbing them and occasionally bashing them. This much is certain. His existence in the flesh is a fact as well established as the existence of Buddha or of Mahomet. But with the life of Patrick Hooligan, as with the lives of Buddha and of Mahomet, legend has been at work, and probably many of the exploits associated with his name sprung from the imagination of disciples. It is at least certain that . . . he lived in Irish Court, that he was employed as a chucker-out at various resorts in the neighbourhood. . . . Moreover, he could do more than his share of tea-leaving, . . . being handy with his fingers, and a good man all round. Finally, one day he had a difference with a constable, put his light out, and threw the body into a dust-cart. He was lagged, and given a lifer. But he had not been in gaol long before he had to go into hospital, where he died. . . . The man must have had a forceful personality, a picturesqueness, a fascination, which elevated him into a type. It was doubtless the combination of skill and strength, a certain exuberance of lawlessness, an utter absence of scruple in his dealings, which marked him out as a leader among men. Anyhow, though his individuality may be obscured by legend, he . . . left a great tradition. . . . He established a cult.'

Hydromancy. See 'Tavern terms', § 3. d.

[Hyphenation. On this difficult subject, see esp. Fowler. The C. 20 tendency—an increasing tendency—is to do away with hyphens. The example of American English is potent; so are the inculcations of logic. But, as an examination of the O.E.D. will show, the English language has always been inconsistent in the matter of hyphens. Perhaps the safest rule (not that I follow it!) is to omit the hyphen wherever it is possible to do so without a loss of clarity or a blunting of nuance. Like punctuation, hyphens can often be used to ensure accuracy, as e.g. in compound epithets: often, too, they make for easier reading. See, G. V. Carey's excellent monograph, *Mind the Stop*, 1939.]

O.K. To the *Dict.* entry it is pertinent to add the fact that Alfred Glanville Vance, 'the great Vance' of the music-halls from the middle sixties to the late eighties, (C. 19), used to sing:

The Stilton, sir, the cheese, the O.K. thing to do,
On Sunday afternoon, is to toddle to the Zoo.
Week-days may do for Cads, but not for me and you;
So dress'th right down the road, we show them who is who.

The chorus ran thus:

The walking in the Zoo—
Walking in the Zoo—
The O.K. thing on Sunday is the walking in the Zoo.

The expression was taken to England by Artemus Ward and was well acclimated by 1880 at the latest. Dr Allen Walker Read, 'The Evidence on "O.K."', in *The Saturday Review of Literature*, July 19, 1941, has conclusively dated it back to 1840 and to a semi-secret political society known as 'The Democratic O.K.', wherein the letters O.K. are used as a cabalistic symbol, perhaps for 'Old Kinderhook', the nickname of Martin Van Buren.

O.K. sheaf! All right!: Australian c.p.: since ca. 1930. B., 1942. 'A N.S.W. advertising slogan that has won some currency. From Tooth's Sheaf Stout.' With a pun on *O.K., chief*, although, in sense, it constitutes a mere elaboration of *O.K.*

6. Terms from Malay were *go buso*, 'to turn septic'—from *busok*, 'rotten'; *lagi*, often mispronounced *leggy*, superseding the synonymous *batshesh*; *Nasi Goring*, 'fried rice'—from *nasi goreng*; and a number of direct adoptions.

7. Japanese supplied *benjo*, lit. 'a convenient place'—a water closet or latrine; *byoki*, sick; *yasme*, lit. 'rest', which did duty for 'rest'—'sleep'—'holiday'—'peace'; camp headquarters being *Yasme Villa*; and, remotely, *Nip*, a Japanese (Addenda).

8. From Australian slang, or from association with Australian soldiers, came *jokers*, 'chaps'; 'fellows'; '*bronzi*s (Aussies, the "bronzed gods" of Singapore ballyhoo journalism)'; '*Bungs* (for Dutch half-castes), originally Australian slang for their own Aborigines'.

9. Dutch yielded *eten halen*, lit. 'to fetch food', and *Gott verdomme*, from *Gott verdomme* (Dutch version of *God damn!*), both as nicknames for the Dutch themselves.

10. Some names for food were these:—'The staple stew, tasteless, meatless, . . . was dubbed "jungle stew"—anything bad was "jungle"—jungle sores, jungle camps, jungle fever, jungle bananas'; 'various types of dried fish. . . "Cheese-fish"—"Bengonsh"—"Picture-frame fish" or "Tennis-racket fish"'; the various disguises of rice were generically *doovers* (see **doover**; though perhaps ironically ex 'hors d'œuvre') or *efforts*, the latter having, at Changi, been a rissole. A *gascape stew* was a dried-vegetable soup.

11. Canteen cries and names: *hot, sweet and*

filthy, concerning coffee or for 'coffee'; *nutty nutty*, 'a local concoction of sugar, peanuts and newspaper'; *lime slime*, a sweetened version of *gu-gu* (tapioca gruel); *limo-limo*, a hot lime drink.

12. Medical terms:—'Amputations were so frequent that two abbreviations, "amputs" and "stampies", were required; and "amput cigarettes" were on sale—rolled by those men who had had a limb amputated; *avit*, an avitaminosis patient; *the diary*, diarrhoea.

13. References to Japanese influence occur in *Jap-happy*, 'for those who were thought to "collaborate" in any way or to do well out of the Nips . . . coined early in Singapore. But it became current in Thailand when the lucky few were the recipients of Japanese clothing—rubber boots were "Jap-happies", and a lion cloth was a "Jap-happy" (or sometimes a "G-string")'.

14. Phrases:—'Anyone who was in a constipated mental condition "had his finger up", and was expected to "pull it out"': see **take your finger out**. 'One phrase . . . stands out . . . it will live to describe an aspect of human nature seen very clearly in the bad times, when selfishness and greed were matched by the envy and malice of the less fortunate, in the utter lack of privacy of the camps in Thailand. It was developed from the phrase "Pull the ladder up, Jack, I'm all right!" which had long been current, as had "F*ck you, Jack, I'm all right!" It was abbreviated, however, by frequency of use to the P.O.W. terms "A Jack Club", "a ladder club" or "Ladder", "a ladder job", "Got your ladder", "Mine's up", and so on, all to describe whatever was considered a "cushy" job for which the usual term could have been "administration" as opposed to "work"'. On the other hand, 'our officers spurred themselves to greater efforts in hut-building with the cry, "Up guards and atap!" (Note. All our huts were atap-roofed.)'

15. Miscellaneous:—*Bangkok bowler*, a Thailander's bamboo hat; *bamboo presento*, a beating-up with a bamboo; *Gordon Thailanders*, Gordon Highlanders; *2359 (hours)*, a coloured officer—usually as a nickname—the time, on the very verge of midnight, when all is dark.

pushed ?, did she fall or was she (p. 671.) This catch-phrase dates from approximately 1908 and arose from a newspaper headline, probably in the *Daily Mail*. A woman named Violet Charlesworth was found dead near Beachy Head at the bottom of the cliff. Suicide was at first presumed, but later a suggestion of foul play was made and the newspaper headline appeared 'Did she fall or was she pushed?'. The innuendo caught the public fancy and for a long time the phrase was used on every possible and impossible occasion. I have never heard it used in particular as applied to a person stumbling. (Andrew Huggard, Jan. 28, 1947.)

1. In 1650 there appeared an anonymous pamphlet entitled *The Eighth Liberal Science: or a new-found Art and Order of Drinking*. In addition to some general matter (introduction, comment, anecdote), there are groups of slangy and colloquial phrases used freely by tavern-frequencers of the time. Of these terms, a few will be found also in the body of the Dictionary: a few terms arose early in the C. 17, a few survived for long periods; but the majority, *qua* drinking-terms, belong to ca. 1640-90. Unfortunately I did not come upon this quite unknown book with its valuable and amusing list of terms—a list here reproduced complete—until June 14, 1937, or four months after the publication of the first edition and when the second edition was already in the press.

2. *The titles which they—the drinkers—give one to another.*

He is a good fellow.
A boon Companion.

One that will drink deep, though it be a mile to the bottom.
One that knows how the Cards are dealt.
One that will be flush of all four.
One that will be as subtle as a Fox.
One that will drink till the ground looks blew.
One that will wind up his bottoms.
One that bears up stiff.
One whose nose is dirty.
One whom Brewers horse hat bitte.
One that can relish all waters.
One that knows of which side his bread is butter'd.
One that drinks Upse-Freeze.
One that drinks Supernaenlum.
One that lays down his ears and drinks.
One that can sup of his Cyder.
He is true blew, &c.

[War Slang of 1939-45. As in 1914-18, so in 1939-45, war has considerably increased the vocabulary both of S.E. and of slang and other unconventional English: see esp. my *Words at War*: *Words at Peace* (1948), alike for general and for particular aspects of the subject, whether for 1914-18 or for 1939-45.

In these Addenda, *Forces'* slang of the latter period is richly—yet, inevitably, far from completely—represented: in Navy, Army, Air Force, there are so many arms or branches of each Service, and so many theatres of war involved, that it is impossible to glean everything from every harvest-field. For a conspectus, hence for a conspensive view, the inquirer could do worse than consult *Forces' Slang*: 1939-1945, which, published late in 1948, has been edited, with an introductory essay, by myself, and to which I have contributed the Air Force terms; the Navy's words and phrases being the privilege of Wilfred Granville, and the Army's being that of Frank Roberts, two men who know what they're talking about.

Wilfred Granville, by the way, is the author of *Sea Slang of the 20th Century* (published early in 1949), to which I have had the honour of writing the introduction and of supplying the etymologies: in that comprehensive work, he has assembled not only the Navy's slang and colloquialisms of both wars, and earlier and after, but also the Merchant Service's relevant terms, with the addition of yachtsmen's, trawlermen's, bargemen's, canalmen's and so forth. I have been fortunate in availing myself of Wilfred Granville's generosity: he has permitted me to draw upon this delightful book.]
